Public Remarks: Just one block from the shores of Lake Michigan with deeded beach access, this extraordinary Saugatuck Township residence captures the essence of refined lakeside living. Thoughtfully and extensively renovated, the home combines sophisticated design, exceptional craftsmanship, and beautifully curated indoor and outdoor spaces in a setting made for enjoying everything that makes the Lake Michigan shoreline so special. Inside, the renovation is immediately apparent. The centerpiece is a remarkable gourmet kitchen designed for both serious cooking and effortless entertaining, featuring a spectacular 43 inch La Cornue range, Sub-Zero built-in refrigerator and beverage cooler, natural quartzite countertops, and two substantial islands that create an exceptional gathering space. Reclaimed French oak flooring, custom metal railings, Restoration Hardware lighting, and beautifully finished walls and trim add warmth and understated elegance throughout the main level.

(1) RealAVM™ is a CoreLogic® derived value and should not be used in lieu of an appraisal.

(2) The Confidence Score is a measure of the extent to which sales data, property information, and comparable sales support the property valuation analysis process. The confidence score range is 50 - 100. Clear and consistent quality and quantity of data drive higher confidence scores while lower confidence scores indicate diversity in data, lower quality and quantity of data, and/or limited similarity of the subject property to comparable sales.

(3) The FSD denotes confidence in an AVM estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion an AVM estimate will fall within, based on the consistency of the information available to the AVM at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.
